

# Konj

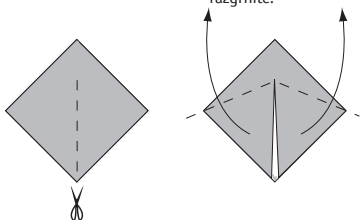

1. Vzemite kvadratni papir. Prepognite ga po obeh diagonalah in razgrnite.

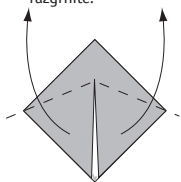

2. Obrnite papir. Prepognite ga na pol po obeh straneh in ga razgrnite.

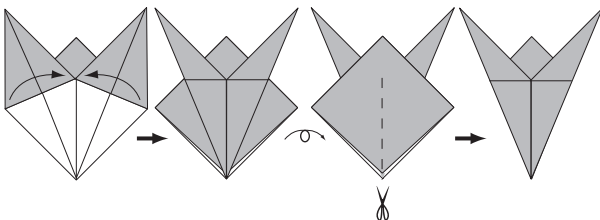

3. Levi, desni in gornji rob zapognite proti spodnjemu, kot kaže slika. Sploščite.
4. Zapognite po črtah in razgrnite.

5. Vzemite škjarje in zarezite po črtah le vrhnji papir.

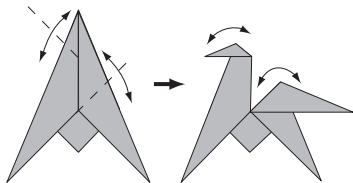

6. Zapognite urezana krička navzgor.

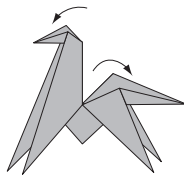

7. Zapognite levi in desni rob proti sredini.

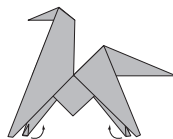

8. Obrnite model in ponovite korake od 5-7 še na drugi strani.

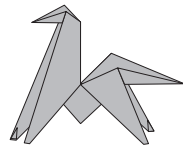

9. Naredite oba pregiba kot kaže slika v obe smeri.

10. Razprite papir in dobili boste štiri noge. Rep in glavo upognite tako kot kaže slika.

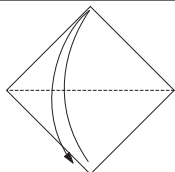

11. Za boljšo stabilnost zapognite krake nog navznoter.

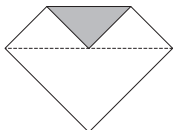

12. Končano!

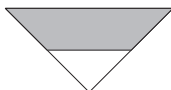

# Mačka

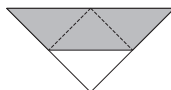

1. Vzemite kvadratni papir. Prepognite po diagonali in razgrnite.

2. Zgornji rob prepognite do sredine.

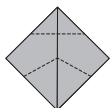

3. Celotni zgornji del papirja prepognite čez sredino.

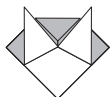

4. Levi in desni rob papirja zapognite po diagonali navzdol.

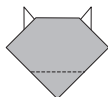

5. Dobite rob.

6. Prva spodnja krilca obrnite navzgor.

7. Dobite ušeska. Sedaj obrnite.

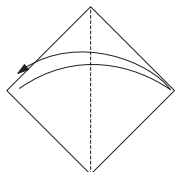

8. Spodnji rob obrnite navzgor.

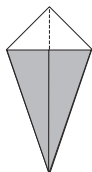

9. Od tega roba še manjši rob obrnite navzdol.

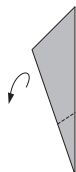

10. Končan I. del.

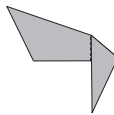

11. Vzemite nov papir za izdelavo trupa. Papir prepognite na pol in razgrnite.

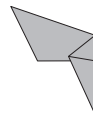

12. Levi in desni rob zapognite proti sredini.

13. Model zasukajte za 90°.

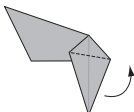

14. Zapognite desni rob navzdol.

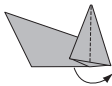

15. Zapognite desni rob navznoter in nazaj razprite.

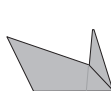

16. Rob razprite v žepik in ga zapognite navzdol.

17. Celotni spodnji del obrnite navzgor.

18. Rep sploščite.

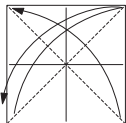

19. Na trup natakните glavo.

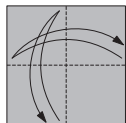

20. Končano!

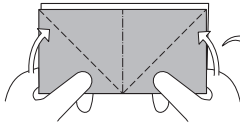

# Metulj

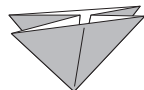

1. Vzemite kvadratni papir. Prepognite po diagonali in razgnite. Ponovite še po drugi diagonali.

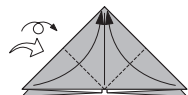

2. Prepognite na pol in razgnite. Prepognite še po drugi strani.

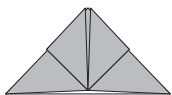

3. Primate spodnja dva robova in jih potisnite proti sredini.

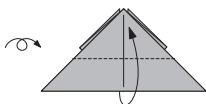

4. Sploščite in obrnite navzdol.

5. Zavihajte zgornja dva zavihka proti vrhu.

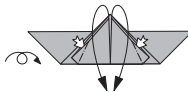

6. Sedaj obrnite.

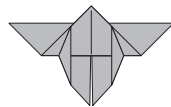

7. Spodnji del zavihajte navzgor.

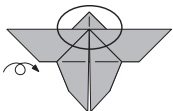

8. Sedaj obrnite.

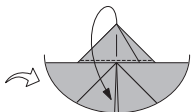

9. Prva zgornja krilca obrnite navzdol, pri tem zapognite skrajna robova navznoter.

10. Sedaj obrnite.

11. V nadaljevanju povečava zgornjega dela slike.

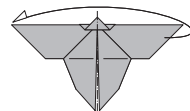

12. Vrh zapognite navzdol.

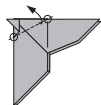

13. Sedaj zapognite vrh malenkost navzgor.

14. Korak 13. je zaključen.

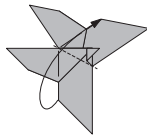

15. Desno krilo zapognite proti levemu krilu.

16. Za izdelavo trupa metulja, zapognite vrh po diagonali v eno stran. Vpogib je nekoliko težje izvedljiv zaradi debeline papirja.

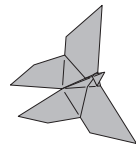

17. Sedaj obrnite.

18. Ponovite korak 16.

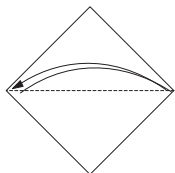

19. Razprite.

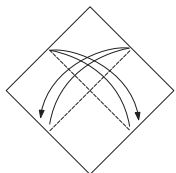

20. Končano!

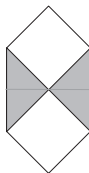

# Pes

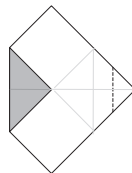

1. Prepognite po diagonalni in razgrnite.

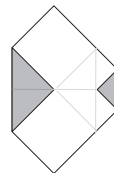

2. Prepognite na pol po obeh straneh in razgrnite.

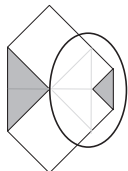

3. Levi in desni rob zapognite proti sredini.

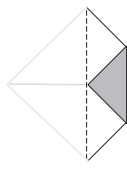

4. Desni rob razgrnite.

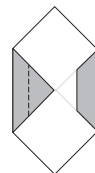

5. Zapognite desni rob navznoter.

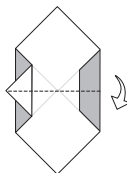

6. V nadaljevanju povečava desnega dela modela.

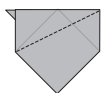

7. Desni zavihek še enkrat zapognite navznoter.

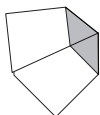

8. Celotna slika modela. Rob levega zavihka zapognite v levo.

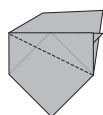

9. Zgornji del modela prepognite po polovici navzdol.

10. Spodnji del modela prepognite po diagonalni navzgor.

11. Zgladite po pregibu in obrnite.

12. Spodnji del modela prepognite po diagonalni navzgor.

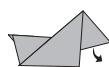

13. Nato po začrtani diagonalni navzdol.

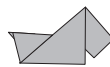

14. Obrnite.

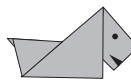

15. Ponovite korak 13 še po drugi strani.

16. Notranjost desnega dela modela potegnite navzdol.

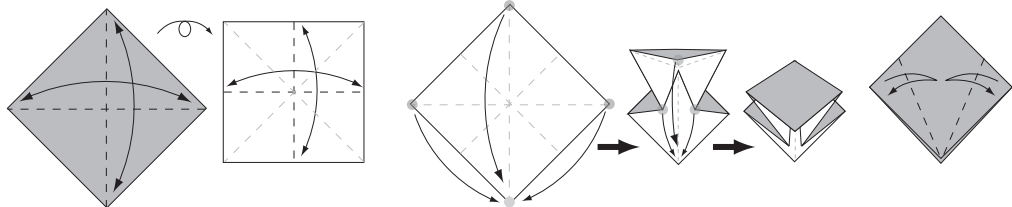

17. Naredite širok gobček, narišite oči in ...

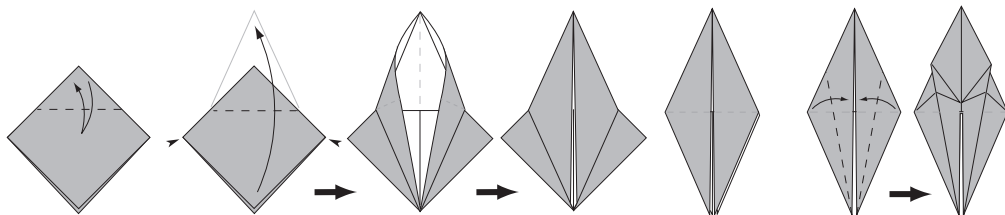

18. Končano!

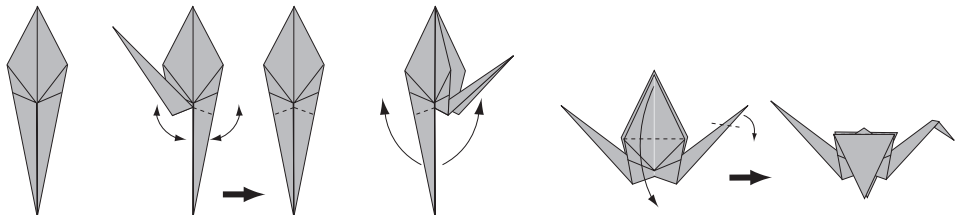

# Žerjav

1. Vzemite kvadratni papir. Prepognite ga po obeh diagonalah in razgrnite.
2. Obrnite papir. Prepognite ga na pol po obeh stranicah in ga razgrnite.
3. Levi, desni in gornji rob zapognite proti spodnjemu, kot kaže slika. Sploščite.
4. Zapognite po črticah in razgrnite.

5. Zgornji rob zapognite navzdol in razgrnite.
6. Odprite spodnji del in ga razprite navzgor ter sploščite tako, da se levi in desni rob na sredini srečata. Levi in desni krak zapognite proti sredini. Obrnite in ponovite korak 4 in 5 še na drugi strani.
7. Dobite pokončni romb.
8. Zapognite levo in desno stran proti sredini.

9. Obrnite in ponovite še na drugi strani.
10. Naredite oba pregiba kot kaže slika v obe smeri in razgrnite.
11. Kraka modela zapognite navznoter tako kot kaže slika.
12. Po črticah zapognite zgornji rob in konico desne "noge", da dobite krila in glavo.
13. Končano!
